STUDENTS
SUCCEED

■ Motormouse

Tell your teen if she does really well in school you'll buy her a Porsche. Then give her one of these sporty wireless mice, a replica of the classic roadster, to rev up her homework efforts. Motormouse.us.com, \$50

■ Mikey Portable Recorder

Who says the iPod isn't an educational device? Plug in a Mikey from Blue Microphones and your kids can record classroom lectures for posterity—or even their own tuneless warbling. Also compatible with iPhone. Bluemic.com, \$100

■ TI-Nspire

Definitely not your father's calculator—the new touchpad makes it easy for budding mathematicians to navigate the Nspire's computer-like interface, while an alpha-numeric keypad is great for data entry. Connect it to a PC or Mac to transfer files, print your work and download teacher-created quizzes. Officedepot.com, \$149

■ Dell Inspiron 14R

Curved, chromed and colorful, this 14-inch Windows 7 notebook is both powerful and stylish. Smudge-resistant palm rests and an ergonomically designed keyboard prevent stains and strains. An optional 10+ hour battery gets through an entire school day and homework too. Dell.com, from \$480
