

5 Pairs of Jeans That Hide Every Bad Thing/Accentuate Every Good Thing

Aww yeahhh.

by SAMANTHA LEAL Mar 3, 2016

Buying jeans is one of the hardest things known to man, up there with solving the Beal Conjecture and folding a fitted sheet neatly. This is mostly because a lot can go wrong, and it takes a lot of factors for it to go right. But we've helped to narrow it down. Here, denim to minimize your "problem" areas and options to define your best assets. And we do mean assets.

2

MINIMIZES HIPS AND THIGHS

The curve-contouring design minimizes your hips and thighs and lifts everything up. So, you know, you look *damn* good.
