# ★ jeans for all!

Think you can't wear the latest jeans because you're not a size 10 yet? Not so fast. Jeans have come a long way in terms of fabric, craftsmanship, and design, all of which means you can now get a perfect fit—no matter what your size.

## THE BOOT CUT

This classic style is slim through the hips and thighs and then subtly flares at the knee to balance out proportions. New features include a contoured waistband that fits higher on the waist to provide back and tummy coverage and prevent the dreaded muffin top.

**PULL IT OFF** Look for a brand that comes in a lightweight stretch denim—it will gently hug your curves. **WISA FLORENZA BOOT CUT, \$75**

## THE SKINNY

Surprise! You don't have to be skinny to wear these notorious jeans. Crafted with more spandex than most styles, the new skinnies provide all-over control, slimming the hips and thighs, flattening the tummy, and lifting the butt.

**PULL IT OFF** Choose a medium-weight cotton, which will smooth out bumps. Also, opt for a dark shade—it's more classic (and more slimming) than trendy pale colors. **WISA FLORENZA SKINNY, \$75**

## THE BOYFRIEND

The modern boyfriend jeans are still loose fitting with the trademark cuffed hem, yet the fabric is no longer distressed and sloppy, and the fit is a bit more snug around the hips.

**PULL IT OFF** Choose a style with a waistband that rises higher in the rear than the front to give your bum a boost. A cuffed hem that falls several inches above the ankle elongates your legs. **LEE GOLD LABEL, \$44**
